

**CITY OF NORTH MIAMI BEACH MEMORANDUM**

**PROCUREMENT MANAGEMENT DIVISION**

**TO:** Arthur H. Sorey, III, City Manager  
**FROM:** Phillip Ford, Chief Procurement Officer

DS  
PF

**DATE:** Monday, July 18, 2022

**RE:** ITB-22-022-MC - NE 153 Street Roadway and Drainage Improvements

**BACKGROUND:**

In an effort to provide excellent municipal services, in a financially responsible manner, and consistent with our Strategic Plan, The City of North Miami Beach (ITB-22-022-MC - NE 153 Street Roadway and Drainage Improvements), seeking bids from qualified, experienced, and licensed bidders to complete roadway and drainage improvements as specified in the scope of work contained in solicitation.

The project consists of design of approximately 2,400 linear feet (LF) of 12-inch watermain and 1,300 linear feet of 8-inch watermain. All interconnections, service connections and stub-outs on the existing pipelines will need to be transferred to the proposed or other existing pipelines. Additionally, fire hydrants shall be installed on the proposed pipelines of adequate size per Fire Department's requirements. It is in conjunction with Public Works roadway improvements on 153rd Street, which will entail the installation of 860 linear feet of drainage pipe, catch basin and manhole structures, a Downstream Defender (vortex) storm water run-off pre-treatment structure and a drainage well box. Also, the entire roadways will be resurfaced with striping and landscaped.

The solicitation was posted on the City's website and BidSync, with electronic notification sent to over 8,800 suppliers. In addition, the solicitation was also advertised in the Daily Business Review. On May 19, 2022, the City received seven (7) bids. The bids were from: HBC Engineering Company, C&W Pipeline, Inc., Florida Engineering and Development, RIC-MAN International, Metro Express, Inc., Pabon Engineering, Inc., and David Mancini & Sons, Inc. The Procurement Management Department conducted an administrative review for responsiveness of the seven (7) bids.

Subsequently, on May 25, 2022, the bid for the apparent lowest responsive bidder, C&W Pipeline, Inc., was provided to the NMB Water Department and Public Works Department. NMB Water and Public Works conducted a technical review of the apparent lowest bid and deemed C&W Pipeline, Inc. as responsible and capable of carrying out the scope of work as outlined in the solicitation. Thusly, the NMB Water Director and Interim Public Works Director has concurred that C&W Pipeline, Inc. is the lowest responsive and responsible bidder.

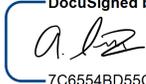

**FUNDING IMPACT / FISCAL SOURCE**

The requested allocation for this project is \$1,085,797 and Funding has been approved in Account # 103865-549630 and 416900-533630.

**RECOMMENDATION:**

Given the above, NMB Water, Public Works and Procurement Management are recommending your approval of C&W Pipeline, Inc. as the lowest responsive and responsible bidder and further authorize staff to seek approval from the City Commission of the same in an amount not-to-exceed \$1,085,797.

**To be placed on the next available Commission agenda:**
