

August 2, 2022

Name, Title
Street
City, State, Zip Code

Dear City of Aventura,

The purpose of this letter is to provide you with some information related to the approved water rate increase that will be effective October 1, 2022. Given the increase in living cost and in order to assist the residents of the City of North Miami Beach (NMB), NMB will utilize funds from the American Rescue Plan Act to subsidize the 4.5% increase and provide credits to Single and Multi-Family Residential for Fiscal Year 2023 (October 1 to September 30). The credit will be shown in the utility bill.

As a municipal partners within our service area, we would like to extend the opportunity to join us in providing subsidy to your residents as well. In these challenging times, we feel that any financial assistance that can be provided, will be a welcome benefit for all. If you decide to participate, the approximate amount would be \$34,800 for Single and \$97,200 for Multi-Family Residentials for a total of \$132,000.

If you decide to provide funding, NMB will open an account for Customer Service to utilize and credit your residents, like NMB, the credit for your residents will be shown in the utility bill. We look forward to partnering with you in this important Customer Service program by giving back to the residents of your City.

Sincerely,

Arthur H. Sorey III
City Manager
City of North Miami Beach
