

Exhibits 2-6

Exhibit 2

Intergovernmental Coordination Element

Policy 1.3.7

The City's ~~Public Services~~ Utilities Department shall hold an annual workshop during June of each calendar year with the government jurisdictions located within its water service area, Miami-Dade Water and Sewer Department, Miami-Dade County Division of Environmental Resources Management, and South Florida Water Management District. The workshop will focus on water supply needs, implementation of alternative water supply projects (including reuse and other conservation measures), and the establishment of level of service standards.

Policy 1.4.4

The City of North Miami Beach ~~Public Services~~ Utilities Department's Water Supply Facilities Work Plan and updates shall consider, coordinate, and be compatible with the South Florida Water Management District's Lower East Coast Regional Water Supply Plan.

Policy 1.9.6

The development of future potable water supplies and the City of North Miami Beach 2020 10-Year Water Supply Facilities Work Plan adopted on XX, shall consider, and be compatible, with the South Florida Water Management District's ~~2013~~ 2018 Lower East Coast Regional Water Supply Plan.

Policy 1.9.7

The City of North Miami Beach will continue to support the County and SFWMD outreach and education events providing information to residents about the region's water resources and the importance of conserving it.

Conservation Element

Policy 1.2.3

Utilize the City's Water Conservation Program Plan dated August 2014, based on the SFWMD requirements and in support of the goals and objectives of the 2018 Lower East Coast Water Supply Plan adopted on November 8, 2018 to assist in guiding water resource management.

Policy 1.2.7

The implementation of the 2020 10-Year Water Supply Facilities Work Plan shall ensure that sufficient water supplies and public facilities are available to serve the water supply demands of North Miami Beach and the other cities and portions of Miami-Dade County within the water service area.

Policy 1.2.8

The City's ~~Public Services~~ Utilities Department shall hold an annual workshop during June of each calendar year with the government jurisdictions located within its water service area, Miami-Dade Water and Sewer Department, Miami-Dade County Department Division of Environmental Resources Management, and South Florida Water Management District. The workshop will focus on water supply needs, implementation of alternative water supply projects (including reuse and other conservation measures), and the establishment of level of service standards.

Policy 1.2.9

The City shall maximize the use of native plants in City landscaping projects and large redevelopment sites utilizing Florida Friendly Landscape principles to provide and improve urban habitat and connectivity for native species.

Policy 1.2.10

The City shall adopt Florida Friendly Landscape principles into the Zoning and Land Development Code.

Policy 1.2.11

The City shall continue to evaluate alternative potable water supply sources evaluation techniques and technologies for water capture and reuse, including rainwater harvesting, and revise its Land Development Regulations as necessary to allow for these options with local building design.

Exhibit 3

Infrastructure Element

Policy 1.2.4

Potable Water. The City's water system shall provide 121 ~~144~~ gallons per capita per day at a pressure of 40 pounds per square inch.

Policy 1.2.7

The City shall consult with the City's ~~Public Services~~ Utilities Department prior to the approval of a building permit to determine whether adequate water supplies to serve new development will be available no later than the anticipated date of issuance of the Certificate of Occupancy. (Infrastructure Element, Policy 1.2.7).

Policy 1.3.1

~~Utilize~~ Continue to review and update as necessary the City's Water Conservation Program Plan dated August 2014, based on the SFWMD requirements and in support of the goals and objectives of the Lower East Coast Water Supply Plan and updates to assist in guiding water resource management.

Policy 1.3.3

The City shall continue to promote the use of ultra-low-flow plumbing fixtures through its Showerhead Exchange Program and ~~requires and enforces~~ the guidelines established by the Florida Building Code, Plumbing.

~~Policy 1.3.11~~

~~The City shall continue to utilize the three 10,000-gallon storage tanks installed at its Operation Center for on site and citywide irrigation purposes. (Infrastructure Element, Policy 1.3.11)~~

Policy 1.3.13

The City shall continue to implement the requirements of Water Use Permit "RE-ISSUE 13-00060-W" permitted through ~~August 9, 2027~~ February 11, 2029 by SFWMD and as described in the City's 2020 10-Year Water Supply Facilities Work Plan to further increase its utilization of raw water as an Alternative Supply.

Policy 1.7.1

The City of North Miami Beach Water Supply Facilities Work Plan (Work Plan) as adopted on XX, ~~as prepared by the City of North Miami Beach Public Services Department in conjunction with MWH Consultants and dated June 2015~~, is incorporated by reference in the Comprehensive Plan. This document is designed to: assess current and projected potable water demands; evaluate the sources and capacities of available water supplies; and, identify those water supply projects, using all available technologies, necessary to meet the City's water demands till 2030. The Work Plan shall remain consistent with the City's Water Use Permit renewals and with projects as listed in the SFWMD's Lower East Coast Regional Water Supply Plan. The Work Plan will be updated, at a minimum, every 5-years and within 18 months after the SFWMD's approval of an updated Lower East Coast Regional Water Supply Plan. ~~The potable water supply facilities necessary to satisfy projected water demands during 2015-2030 period are shown in Table 6.3, of the Work Plan. The potable water supply facilities necessary to satisfy projected water demands during the 2015-2030 period are shown in Table 6.3 of the Work Plan.~~

Policy 1.7.2

The basis for developing and updating the City's 10-Year Work Plan will be the current approved version of SFWMD's ~~2013~~ 2018 Lower East Coast Regional Supply Plan.

Policy 1.7.3

The City shall coordinate appropriate aspects of its Comprehensive Plan with the jurisdictions within its water service area and the SFWMD's ~~2013~~ 2018 -Lower East Coast Regional Water Supply Plan. The City shall amend its Comprehensive Plan and Water Supply Facilities Work Plan as required to provide consistency with the District plan.

Policy 1.8.3

In the development of its future potable water supplies the City shall to the maximum extent feasible, utilize methods which preserve the integrity of the Floridian Aquifer and are compatible with the SFWMD's ~~2013~~ 2018 Lower East Coast Regional Water Supply Plan, and comply with the land use and environmental protection policies of the Miami-Dade County CDMP, the Strategic Regional Policy Plan for South Florida, and the State Comprehensive Plan.

Exhibit 4

Capital Improvement Element

Policy 1.2.1

Water supply system: shall meet a level of service of 121 ~~150~~ gallons per person per day at 40 lbs/sq. inch pressure.

Policy 1.2.16

Appropriate mechanisms will be developed and adopted by the City of North Miami Beach in order to assure that adequate water supplies are available to all water users of the City of North Miami Beach ~~Public Service~~ Utilities Department. Furthermore, the City of North Miami Beach ~~Public Services~~ Utilities Department shall be responsible for monitoring the availability of water supplies for all water users serviced by ~~of~~ the City of North Miami Beach's system ~~Public Services Department~~ and for implementing a system that links water supplies to the permitting of new development. (Capital Improvement Element, Policy 1.2.16).

Exhibit 5

Conservation Element

Policy 1.2.3

Utilize the City's Water Conservation Program Plan dated August 2014, based on the SFWMD requirements and in support of the goals and objectives of the 2018 Lower East Coast Water Supply Plan adopted on November 8, 2018 to assist in guiding water resource management.

Policy 1.2.7

The implementation of the 2020 10-Year Water Supply Facilities Work Plan shall ensure that sufficient water supplies and public facilities are available to serve the water supply demands of North Miami Beach and the other cities and portions of Miami-Dade County within the water service area.

Policy 1.2.8

The City's ~~Public Services~~ Utilities Department shall hold an annual workshop during June of each calendar year with the government jurisdictions located within its water service area, Miami-Dade Water and Sewer Department, Miami-Dade County Department Division of Environmental Resources Management, and South Florida Water Management District. The workshop will focus on water supply needs, implementation of alternative water supply projects (including reuse and other conservation measures), and the establishment of level of service standards.

Policy 1.2.9

The City shall maximize the use of native plants in City landscaping projects and large redevelopment sites utilizing Florida Friendly Landscape principles to provide and improve urban habitat and connectivity for native species.

Policy 1.2.10

The City shall adopt Florida Friendly Landscape principles into the Zoning and Land Development Code.

Policy 1.2.11

The City shall continue to evaluate alternative potable water supply sources evaluation techniques and technologies for water capture and reuse, including rainwater harvesting, and revise its Land Development Regulations as necessary to allow for these options with local building design.

Exhibit 6

Future Land Use Element

Policy 1.1.7

The City through its Land Development Regulations and in coordination with the 2020 10-Year Water Supply Facilities Work Plan adopted on XX will coordinate current land uses and any future land use changes with the availability of water supply system.
